

Our Mission:

To provide innovative solutions to the complex problems associated with maintaining the U.S. Military's information dominance on the battlefield of the future.

Lakota provides these solutions by applying a holistic approach to system operations, rather than developing "stove-pipe" solutions. Lakota is able to provide this type of "total system" solution due to the systems engineering expertise and software and hardware skills of its staff.

About Lakota:

Lakota Technical Solutions, Inc. is a systems and computer engineering firm located in Laurel, MD.

Lakota was formed in 1997 and is a privately owned company.

The name Lakota can be interpreted to mean 'an alliance of friends' and is the name of the largest of the three groups composing the Great Sioux Nation. The name Lakota embodies values associated with friendship (honesty, loyalty, respect), which are at the core of our relationships with clients and employees.

Lakota provides the total end-to-end solution by emphasizing system engineering principles throughout the product life cycle

Our office is centrally located in the Baltimore – Washington metro area.
